PROFESSIONAL SUMMARY:

"Entrepreneurially-minded problem solver with 3 years of experience building and leading machine learning projects. Highly skilled in communication, collaboration, and technical documentation."

AREAS OF EXPERTISE:

- | | |
|----------------------------|--------------------|
| ✓ Python & Tensorflow | ✓ Machine Learning |
| ✓ Deep Learning Algorithms | ✓ AWS Cloud |
| ✓ NLP | ✓ MS Excel |
| ✓ Computer Vision | ✓ SQL |

PROFESSIONAL EXPERIENCE:

Urbanelmpulse (Startup)

Co-founder | March, 2020 - December 2021

- Developed an Ed-Tech Platform for Crisp Content Delivery for Podcasts
- Worked with 3 skilled co-founders with combined work experience over 15 years.
- Got mentored from IIT Kanpur Alumni and product-ready for MVP Stage.

ML Research Internship - IIT Dhanbad (Ongoing)

Language Classifier for Code-mixed English Hindi | Aug 2022 - Present

- Working on Building a Code-Mixed Language Classification Model for English-based Hindi for Home Automation.
- Project associated with IIT Dhanbad and Samsung R&D Institute, Bangalore

RELEVANT PROJECTS:

Tweet Emotion Recognition using NLP

NLP & Tensorflow | February 2022

Semantic Segmentation with AWS Sagemaker

Amazon Sagemaker, Computer Vision | April 2022

Language Detection using NLP

NLP & Tensorflow | August 2022

EDUCATION:

2020 - 2024 | Pune Institute of Computer Technology

Bachelor of Education - Information Technology

Honours in Data Science (2022 -2024)
